

# Cougar® AP5 Series Piston Vibrators

## BENEFITS

- **Economical**  
Low initial cost, plus cost savings by eliminating the pounding, poking, and hammering of hoppers, ensures material flow with cost savings.
- **Minimal Maintenance**  
Limited maintenance required for life of the vibrator when used with a filtered and lubricated air supply.
- **Versatility**  
Variable control of force and frequency to meet a variety of material conditions.
- **Slotted Mounting Holes**  
The AP5-200 can be a bolt in direct replacement for nearly all 2" piston vibrators in the marketplace.
- **Exhaust Mufflers**  
The AP5-200 comes standard with exhaust mufflers to attenuate the exhaust noise and aid in preventing dust and dirt from entering the vibrator.

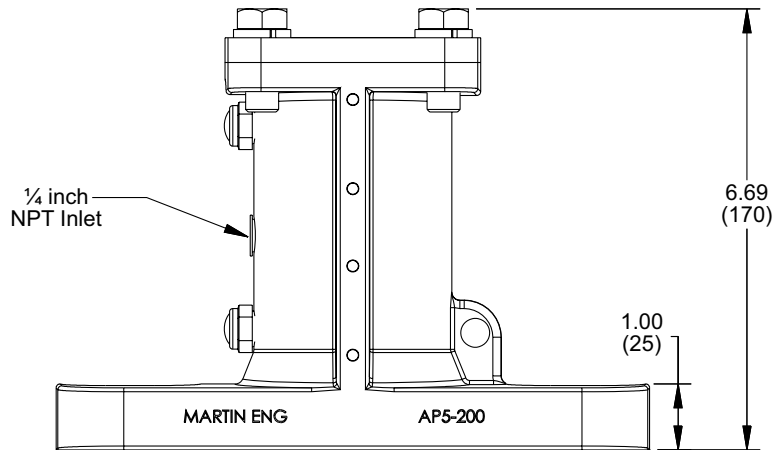

## FEATURES

- Alloy steel bodies
- Hardened pistons
- Low air consumption
- Produces uniform directional force
- Optional
  - internal spring for positive starting
  - manifold/muffler for quiet operation
  - air cushioned non-impacting
  - universal mount
  - high temperature up to 400°F

## Specify Cougar for:

- Cost effective solutions
- Expert technical assistance
- Complete service and support

# TECHNICAL DATA SHEET
